To the Parties:
Here is the link to the Exhibit List: https://efiling.energy.ca.gov/Lists/ExhibitList.aspx?docketnumber=13-AFC-01.

We tried to assign exhibit numbers as requested by the parties. However, that the docketing system will not allow a single exhibit number to cover multiple TN numbers. So, for instance, the Applicant sought to use Exhibit number 1000 to cover about 74 TN numbers but the system prevented us from doing that. Instead what we did was assign exhibit numbers in the 1400s series to cover the AFC exhibits and the 1500s series to cover the SAFC. That's why we don't have an exhibit 1000, 1023 and 1024.
Also, the docket system will not allow a TN number to have more than one exhibit number. This table shows the result when two or more parties identified the same document as an exhibit. Please use the Actual Exhibit Numbers. If your experts cited to an exhibit number that was not used, refer to the table below to find the Actual Exhibit Number.

Proponent	Proponent's Ex. No.	Actual Ex No.
Applicant	1000 -1001	1401-1473

Please check to make sure that all of your exhibits are contained within the Exhibit List.
