Subject: RE: 13-ALT-02 for 2014-2015 Investment Plan update from Greenkraft Inc
Date: Monday, February 10, 2014 5:10:22 PM

Hi
We also have one more comment on this PON.

We think the number of incentives per customer should be changed from 10 to a higher amount as there are many fleet customers who have over 10 vehicles. We suggest 50 or no limit, as the point is to get CNG vehicles on the road and if a client has 50 vehicles or 100 in their fleet that they want to green it would be hard to do just 10. Also the definition of a fleet is to have 10 or more vehicles so we suggest this number be increased.
Thanks
Sosi

Hi Please see our comments.

Please see our suggestions in the attached letter for incentives. If these changes are not possible then we would suggest keeping the incentive amounts from the last PON for buy down incentives.

Thanks
Sosi
