Opposition to Compass Energy Storage Project

We are long-time residents of Laguna Niguel, in close proximity to the proposed battery storage facility in South Orange County. We would like to communicate our strong opposition to this site given the potential danger to a myriad of homes nearby and the extremely high fire risk in this area as noted by OCFA. We respectfully request that the commission reject the current site. It seems that there are a number of potential options in this state that are more appropriate to this project. Please protect our safety!
