Stop Compass Energy Storage project (24-OPT-02)

To the California Energy Commission,

I am writing to express my opposition to the Compass Energy Storage project in San Juan Capistrano, Ca. The proposed facility is in close proximity to existing neighborhoods and schools. This creates serious risks to health and safety in the event of fire, toxic emissions, or a system failure, especially given the volatile nature of large-scale battery storage systems. I respectfully urge the Commission reject this application and prioritize the health and safety of our local Californians.
