Opposition to BESS project

As a parent of two children in the Capistrano Unified School District, I'm deeply concerned for their safety and for all families in our community.

Lithium battery fires are intense, toxic, and nearly impossible to control. A fire could force evacuations, threaten the 5 Freeway, 73 Toll Road, and Amtrak, and release harmful chemicals into our air, soil, and water.

Property values will drop, health risks will rise, and our community will be permanently changed.

This is our one chance to stop it. Please say no to this facility and put our children's safety first.
