Battery Storage

The proposed Battery Storage Facility in San Juan Capistrano is a bad idea. The location is terrible-it's way to close to too many homes, schools, Interstate 5, railroad tracks, etc. Thousands of people will be impacted by this facility. There absolutely has to be a better location than this. In the event of a fire, it will have a very negative impact on all of these people- especially children and elderly. Please say NO to this facility.
