Will Compass/Engie be receiving state money or tax credits for the building of this facility?

Please deny this project.

Why does Engie need to circumvent the City of San Juan Capistrano's denial of its application to build a BESS facility by going directly into o CEC? The City is not opposed to building such a facility. It just doesn't want it built on the Saddleback Church property. It even offered alternative sites.

I scratch my head when I wonder why Engie gave a \$750,000 grant to Saddleback College, if they thought they wouldn't be building a BESS facility, directly across the freeway from the school. Kind of looks like the construction of the facility is a forgone conclusion, doesn't it?
