RE: Scoping Meeting for Assembly Bill 3
Reports

Notice of Staff Workshop on Assembly Bill 3: Scoping Reports on Offshore Wind Seaports, Workforce, and Supply Chain

June 18, 2025

10:00 a.m. – 1:30 p.m.

Remote Access Only

See Attendance Instructions.

The California Energy Commission (CEC) will host a meeting to present the [Assembly Bill \(AB\) 3](#) (Zbur, Chapter 314, Statutes of 2023) legislation and staff's proposed scope and strategy for developing the required reports, and receive public comment on staff's proposals. AB 3 requires the CEC to prepare and submit two reports to the Governor and Legislature on seaport readiness, and supply chain and workforce feasibility of achieving specified in-state assembly and manufacturing targets.

A quorum of CEC commissioners may participate, but no votes will be taken.

The public can participate in the workshop consistent with the attendance instructions below. The CEC aims to begin promptly at the start time posted and the end time is an estimate based on the proposed agenda. The workshop may end sooner or later than the posted end time.

Agenda

CEC staff will provide an overview of AB 3 and staff's proposed implementation scope and strategy for developing the reports, which require extensive collaboration and consultation. Additionally, staff will present the results of a recent literature review of research and reports, including reports developed through the implementation of California's *Assembly Bill 525 Offshore Wind Energy Strategic Plan*, that can inform the development of the reports required by AB 3. There will be time reserved for public comment.

A detailed meeting schedule will be posted prior to the workshop at Docket No. [25-AB-03](https://efiling.energy.ca.gov/Lists/DocketLog.aspx?docketnumber=25-AB-03) available at <https://efiling.energy.ca.gov/Lists/DocketLog.aspx?docketnumber=25-AB-03>, as well as on the CEC's Events Calendar available at <https://www.energy.ca.gov/event/workshop/2025-06/staff-workshop-scoping-assembly-bill-3-offshore-wind-ports-workforce-and>.

Background

AB 3 requires the CEC to prepare and submit two reports to the Governor and Legislature. The CEC is to consult with specified state agencies, including the California State Lands Commission, California Coastal Commission, California Workforce Development Board, Ocean Protection Council, California Department of Fish and Wildlife, Governor's Office of Business and Economic Development, Governor's Office of Land Use and Climate Innovation (formerly Office of Planning and Research), and other relevant state and federal agencies.

- Report 1 is a second-phase plan for seaport readiness due by December 31, 2026 (Public Resources Code (PRC) Section 25991.8).
- Report 2 is a feasibility study of achieving 50 percent and 65 percent in-state assembly and manufacturing of offshore wind energy projects due by December 31, 2027 (PRC Section 25991.9).

AB 525 (Chiu, Chapter 231, Statutes of 2021) directs the CEC to complete a strategic plan for offshore wind energy development in federal waters off the California coast. The *Assembly Bill 525 Offshore Wind Energy Strategic Plan* was adopted by the CEC on July 10, 2024, and is informed by three interim reports prepared by the CEC. More information on the [CEC AB 525 Reports](https://www.energy.ca.gov/data-reports/reports/ab-525-reports-offshore-renewable-energy) is available at <https://www.energy.ca.gov/data-reports/reports/ab-525-reports-offshore-renewable-energy>.

The *Assembly Bill 525 Offshore Wind Energy Strategic Plan* consists of three volumes: **Volume I** is an overview report, **Volume II** is the main report, and **Volume III** contains the technical appendices. The information and reports developed to meet the requirements of AB 525 are foundational to the reports required for AB 3 and will serve as a starting point to complete both AB 3 reports.

All documents and public comments will use the Assembly Bill 3 California Offshore Wind Advancement Act Docket, [25-AB-03](https://efiling.energy.ca.gov/Lists/DocketLog.aspx?docketnumber=25-AB-03) available at <https://efiling.energy.ca.gov/Lists/DocketLog.aspx?docketnumber=25-AB-03>. Additional documents for public review will be released before the workshop and posted to the docket. All subscription listservs will be notified when additional materials are available.
