Dear Cory Sobotta:

As required by Senate Bill 350 (De León, Chapter 547, Statutes of 2015) (SB 350) (in the Public Utilities Code (PUC) Section 9622) the California Energy Commission (CEC) has reviewed the Turlock Irrigation District (TID) Integrated Resource Plan (IRP) filing, which was received on March 8, 2024. The CEC informed TID on September 16, 2024 that the IRP filing was complete, as required by Chapter 3, Section B.1 of the *Publicly Owned Utilities' Integrated Resource Plan Guidelines (POU IRP Guidelines)*.¹

Based on a detailed review and analysis of the IRP, standardized tables, and other supporting information, I determined, as documented in the *Review of Turlock Irrigation District's 2023 Integrated Resource Plan* (April 2025), that TID's 2023 IRP is consistent with the requirements of PUC Section 9621, and meets California's energy and other policy goals, including:

- Achieving greenhouse gas emission reduction targets commensurate with the electricity sector's percentage of economy wide reductions of 40 percent from 1990 levels by 2030.
- Meeting the Renewables Portfolio Standard of 50 percent renewable energy by 2030, based on SB 350, and 60 percent by 2030 based on SB 100.
- Ensuring planning goals related to retail rates, reliability, transmission and distribution systems.
- Considering the role of renewable resources, grid efficiencies, energy storage, and distributed resources in meeting peak demand.
- Addressing procurement of energy efficiency and demand response, energy storage, transportation electrification, and portfolio diversification.

The *Review of Turlock Irrigation District's 2023 Integrated Resource Plan*, available in Docket No 18-IRP-01, provides the details of the CEC's review and findings regarding the consistency of TID's IRP with PUC Section 9621. The CEC anticipates considering adoption of this determination at the CEC Business Meeting in August 2025.
