Please stop The BESS Project in Laguna Niguel

I want to express my strong opposition to the proposed BESS location in Laguna Niguel. A close look at the new fire map shows the proposed location very close to high and very high fire zones in Laguna Niguel. We are already having insurance issues in this area, this will only exacerbate them. In a rush to develop clean energy the health and safety of this wonderful community is being jeopardized. Are you willing to be held legally accountable if the unthinkable happens?
