Docket Number: 23-OPT-01

Opposition

I am opposed to anything to the land being used by this company. If the company gets their way, they are putting wildlife in danger, as well as humans. The turbines would render firefighting practically obsolete. This land is a natural energy resource to the Native Americans in the area, who are also opposed to this company taking over their land. Nothing good will come from this company becoming established in the area. The company's already been denied twice, there's no reason for them to continue soliciting action. Please do the right and responsible things and deny access to the company!
