## **I oppose the lithium battery plan**

This project doesn't serve our community at all. They are planning to put it in a densely populated area with 3 transportation areas that would be impacted should there be a fire. And let's mention the homes, schools. What if there was an earthquake. It is a disaster waiting to happen and I don't want to see that in my town. It needs to go somewhere where all of these problems don't exist.
