Compass Energy Storage proposal to construct battery Storage System in San Juan Capistrano

As president of the California Cultural Resources Preservation Alliance Inc. (CCRPA) I am writing to voice our objection to the proposed project. CCRPA along with the Acjachemen tribal community worked with the city for 14 years to get the Putuidem Cultural Park in the Northwest Open space. The proposed project is just north of Putuidem. In addition to the impacts from toxic fumes and pollution for homes and businesses, the construction of the battery storage facility has the potential to impact cultural resources and the toxic fumes to impact Native American religious ceremonies held at the Putuidem Cultural Park.

Patricia Martz, Ph.D.
President
California Cultural Resources Preservation Alliance, Inc.
