No Battery Storage in San Juan

I moved to Laguna Niguel in 2018 with my young family. My kids are now a junior and senior at Dana Hills High School, and my wife and I plan on living in this home for the rest of our lives. This proposed plant is 2.5 miles from my home, retirement, and future.

Not if, but when something goes wrong, the community will suffer, and the corporations and state will not care.
DON'T BUILD IT.
