Stop Bess - we do not consent

I am opposing the lithium Battery storage facility for the following reasons:

- Fire Hazards: BESS systems have a history of high-temperature fires that can spread rapidly and are difficult to extinguish.
- Toxic Fumes: Battery fires release harmful chemicals, potentially jeopardizing air quality and public health.
- Environmental Risks: Potential groundwater contamination from battery waste.
- Dangerously Near Residents: The proximity to schools, neighborhoods, and wildlife habitats potentially endangering families and ecosystems.
- Noise Pollution: Lengthy construction and ongoing / construction
