Opposition to the Proposed Compass Energy Storage Facility in SJC CA

My name is Don Eslick and I live 1.5 miles from the proposed Compass Energy Storage Facility in SJC CA.

I applaud the state of CA's efforts to develop clean renewable energy sources like this facility. However, we must be smart as to where we build these facilities. Building this facility so close to Homes, Schools, Hospitals, the 5 FRWY Corridor and the Metrolink rail lines not to mention the highly flammable landscape within that canyon makes no sense at all. We have seen what has happened at Moss Landing and Otay Mesa. If the same thing happened here the results would be catastrophic. The technology just isn't there yet.

I respectfully ask the CEC to deny this project be built at this location and to find another more appropriate location for this Project. Thank You
