Oppose Compass Energy Battery Project

I strongly oppose the Battery Storage facility proposed in San Juan Capistrano, California by Compass Energy. I own property and have lived in Laguna Niguel, California for 30 years. My home is within one mile of the proposed battery storage site. I am very concerned about the hazards the proposed facility, specifically the fire danger. Having a high risk facility within 1500 feet of homes, and within 1 mile of my home, is MAJOR concern.
