Docket Number: 24-OPT-02

We oppose this Danger Battery farm in very close proximity of our home on hill above

Dangerous Location in proximity to our homes, schools, freeways railroad , senior Living home

Major problem only One Access Road in the event and when there is a fire one Road for thousands of homeowners. The Toxic fumes itself will compromise many and many will get Cancer. My son is Retired Firefighter Hasmat team. The RISKS are not acceptable!!!

Find another area inland from populated areas . We have seen the devastation in other areas !!!! This is too CLOSE to Residents. The hillside will fire up to our homes FAST and furious.

San Juan Capistrano and Laguna Niguel voted NO ON THIS PROPOSED SITE. This is Outrageous for the CEC to ok this. This Governor Newsome is Destroying our cities.

ALL FOR THE MONEY!!! We will unite if you pass this

A NO NO NO VOTE FROM YOU DECENT people. You wouldn't vote for this in your backyard ..Would you?
