## **Opposition to the compass battery storage facility in San Juan Capistrano**

Hi, This facility is going in the wrong area. It is a high brush area close to homes, businesses and wildlife. These batteries are not green and should be called that. It's going to cause our insurance to go up who knows how high or if availability at all. The firefighters are against this project the experts say no. Continued opposition to this project and urge you to make the right decision and save our community. Not to mention the wildlife that we will be harming. Please say no to company do us right. Thank you for your time
