Docketed Date:	6/4/2025

May 30, 2025

Atten: Calif. Energy Commission-

I'm writing to highly object to the Compass Energy Storage Project.

I'm a resident of Laguna Niguel-Ca. 92677.

This city is close enough to any burning explosions from the said proposal!

This obviously is detrimental to our physical and emotional/mental health!

Also it is a toss up if my homeowners Insurance would pay anything should I have to move out of my home as the fire tries to burn itself out. (P.S. Example MOSSLANDING-Ca.)

Please denie this project so close to homes/business!

Put it in the high or low desert area!
Please don't allow big money or politics to allow this to happen!

Please record this on record!

Respectively,

Linda M. Christianen

P.S. I do not own a computer and NO E-Mail
