## **NO to BESS Facility in SJCLN!!!**

Please DO NOT approve of the BESS battery storage facility in San Juan Capistrano/Laguna Niguel!!! It is very close to residents, in a highly dense area (right off a MAJOR freeway, the I-5 in Southern California). There MUST be better and safer places to build this facility! This area is high risk for wildfires - why would ANYONE in their right mind build this facility there? If there is wildfire (and there have been several in the immediate vicinity in the last few years), the facility will burn and burn and burn, spewing toxic smoke and ash, poisoning our water, and leaving the area devastated when it finally burns itself out. I could list many other reasons as to why this should NOT be built here, but you get the idea.

As a resident (homeowner) in Laguna Niguel, I am STRONGLY STRONGLY opposed to this location. It would be better located in a less densely populated area, or even located on the edges of higher densely populated area.

Please DONT ALLOW this facility to move forward at this location!  
Diane Fleck  
resident of Laguna Niguel
