**Do not put the 13 acre Lithium Battery Storage facility in a densely populated area that is also prone to wildfires!!**

This is outrageous! There is a freight train that is 300 feet away from this site. I live about 600 feet from the freeway on the other side of this monstrosity that is going up and MY HOUSE RATTLES WHEN A FREIGHT TRAIN GOES THROUGH! I wake up thinking its an earthquake. Our 32 home community is across from Capo Valley High School. It will take hours to evacuate the school and our neighborhood. Then Marguerite Parkway/Rancho Viejo Rd will back up and this is RIGHT NEXT TO THE STORAGE FACILITY BEING PROPOSED! Saddleback College was paid 750,000 to support this project and be the official "COMMUNITY SUPPORT" this project needed!! That is a bribe! The real community, in fact, the entire south county, does not want this BESS station here. PUT IT SOMEWHERE THAT IS NOT NEXT TO OPEN SPACES, CREEKS, SCHOOLS. and HOMES. There isn't enough infrastructure to support an evacuation in this area. There has already been wild fires in this area!!! WHAT ARE YOU GUYS THINKING? This is a disaster waiting to happen. WHAT ABOUT THE TRAIN???!!! IS NO ONE GOING TO TALK ABOUT THAT??? STOP THIS MADNESS!!
