## **I am putting you on Notice**

To the Commissioners, Chiefs-Of-Staff, Policy Advisors, Analysts and Assistants of the California Energy Commission,

My name is Cynda Ormsby-Johnson. I spoke in Opposition to the proposed BESS installation by Compass Energy Storage LLC at the May 29, 2025 public comment session.

Our community made it clear that we do not want this in our neighborhood, especially because of the previous fire in this valley on June 15, 2016 and that CAL Fire has recently updated the Laguna Heights neighborhood as a Very High Fire Hazard Severity Zone. My band took pictures in the valley after the aforementioned 2016 fire and I am attaching the best image I have that shows the scorched ground.

Since everything else has been said, many times over, there is no reason to rehash the many reasons we urge you to oppose this project.

Therefore, all I have to say now is that I am putting the individual members of the California Energy Commission, be they Commissioners, Chiefs-Of-Staff, Policy Advisors, Analysts or any Assistants on Notice. If you approve this project, I am holding you personally responsible for any losses, damages or injuries and will encourage others to do the same.

I will be writing my full Notice of Liability in the coming weeks as we are currently in Day 34, of the 270 Day decision period.

Sincerely,  
Cynda Ormsby-Johnson
