I oppose to the proposed Compass Battery Storage Project. The risk posed to the neighborhoods, families, and communities in this area is extremely high, and should be considered in another location where the risk of fire and brush is lower. We live in the neighborhood directly back in the valley where this project is proposed to be located, and overlook where it would be. If something were to happen, our home would be the first to go. Please take into consideration the dangers and risks this would pose to us and our community.
