## **24-OPT-02 and Compass Energy Storage Project NOP Comments**

To whom it may concern,

As a resident of South Orange County I am writing to you in strong OPPOSITION of the Battery site in San Juan Capistrano.

This site is will have a devastating impact on the environment, wildlife and people who live here. There will be accidents, no matter how careful you try to be, it will happen. It is in a high fire danger zone and it only takes one spark to create a devastating fire that would decimate our neighborhoods and businesses and be catastrophic for the environment. We can't even get home owners insurance because we are in such a high fire risk, how can you possibly place a battery facility here?

It is unacceptable to be right next to the watershed that drains in to our ocean and swimming beaches. Our oceans are highly susceptible to pollution from the fires, pesticides, and waste that flows down through Doheny. It is unacceptable this site it next to our neighborhoods, our churches, our equestrian centers, our schools and businesses. It is not safe and is dangerous.

A battery storage facility in the right place with the minimal impact on the environment can be a good thing, but NOT here, in SJC. It's not the right place. Please listen to us who oppose and stop.

Thank you,  
Alison Johnson
