24-OPT-02 and Compass Energy Storage Project NOP Comments

To whom it may concern,

I am a homeowner in San Clemente, and I am strongly opposed to the Compass Energy Storage project proposed in the San Juan Capistrano area. While I support clean energy, I have serious concerns about the scale and location of this project, especially given its proximity to homes, schools, and natural open space. The risks associated with battery energy storage—such as fire, chemical exposure, and strain on local infrastructure—are unacceptable in a densely populated area. I urge local leaders and decision-makers to prioritize public safety and environmental responsibility by rejecting this project.
