Re: Docket 24-OPT-02
Compass Energy Storage Project

Hello.

I am sending my written statement of concern and disapproval for the Compass Energy Storage Project proposed in Laguna Niguel.

I have lived in Orange County, CA for over 50 years. This project is extremely concerning given the documented risks associated with lithium-ion BESS facilities, the potential for catastrophic fires and environmental contamination- effecting our community- residents and wildlife.

I urge the City of Laguna Niguel to take a firm stand against the proposed Compass Energy Storage Project.

Thank you for the opportunity to express my concern and disapproval for this project.
