Kathy Stocker comment on 24-OPT-02 and Compass Energy Storage Project NOP Comments

I am very upset by this proposed energy storage project. It is a very bad idea that puts at risk 1,000 of people and hundreds of homes. It is in a known high fire threat area, where if there is a fire, it could be catastrophic to the surrounding people.

It always boils down to profits, and I beg you to consider the consequences to these actions.

Please refuse to approve this - move it to a location that is less inhibited, it is a no brainer and anyone approving this will not be able to live this down the rest of their lives. You will be held accountable by your friends, family, community and any potential future roles in politics, community and worklife.

Please reconsider and cancel this project. I beg you.

Respectfully,
Kathleen Stocker
Dana Point resident (Laguna Niguel long time over 20 year resident).
