Sara Malone comment - Letter to CEC

Letter to CEC

June 4, 2025

To whom it may concern,

I'm writing this letter regarding the proposed San Juan Capistrano lithium battery storage facility. As a resident of Laguna Niguel, I'm well aware of the dangers that will impact our community if this facility is built.

If the CEC approves this lithium battery storage facility and a fire breaks out or there is failure in the system, the blame will be on you for deaths, health issues for people, pets and wildlife, environmental damage, air pollution, loss and devaluation of our homes and businesses, etc. Do you want this responsibility? How could you live with your consciences if this happens?

Please don't allow this lithium battery storage facility to be built in our community. The location doesn't make sense due to the safety history of these types of facilities in other locations. They should be located in the middle of the desert far away from communities.

Sincerely,

Sara Malone
Laguna Niguel resident
