Stop Lithium Battery Project!

I absolutely oppose the lithium battery project for SJC. Compas church should be ashamed. Now the state needs to step in and resolve this issue. I am hopeful that it will be realized that this project is not meant for the populated area of San Juan Capistrano, Laguna Niguel, and Dana Point. This project needs to be placed in a less populated area that will not be effected by the fires that are destined to happen. Now is the time to search for a new area away from populated areas! Stop this craziness and stop the lithium battery project for SJC.
