I am writing to vehemently OPPOSE this project. It is located in an area that is already heavily compromised in terms of risks due to brush fires and mud slides. In addition the proposed site is adjacent to areas with limited accessibility for evacuation for seniors, church goers, horses, and other wildlife.

This project and others like it do not provide safeguards or operating parameters to sufficiently mitigate risks, nor do they provide sufficient community benefit to offset the risks. We will all pay more for property insurance and have the high likelihood of being denied insurance, further burdening our community while providing NO benefits to those of us carrying that increased burden and increased risk.

Allowing this project to move forward is tantamount to exposing our community to a continuous and under-managed threat of fire and very high risk of subsequent destruction of our properties and even our lives.

Do better.

Regards,
Michelle Wostenberg
Resident, San Juan Capistrano
