I oppose the location for the lithium battery storage in SJC where it is so close to homes, schools and businesses. As a local firefighter, lithium battery fires are no joke. They are extremely hard to extinguish even with copious amounts of water. And that's just with one vehicle with lithium batteries in it. Can you imagine a storage facility full of them if something were to go wrong.

Let's relocate these to a much safer area away from home, schools and businesses.

Thank you,
