Terrible location for schools and homes- high fire risk

Stoneybrooke school AND Capo Valley High school ARE DIRECTLY ACROSS THE FREEWAY FROM THIS PROPOSED FACILITY.Â Â SHOULD A FIRE BREAK OUT AT THE BESS FACILITY, BOTH OF THESE SCHOOLS WOULD NEED TO EVACUATE TOWARDS THE FIRE, AS THERE IS NO OTHER EVACUATION ROUTE FROM THEIR CAMPUSES.Â Â WE DO NOT WANT OUR KIDS LIVES BEING PUT AT RISK!Â Â WE ALSO DO NOT WANT THEIR TOXIC GASES BEING DISPERSED ALL OVER SOUTH ORANGE COUNTY HOMES, SCHOOLS, AND INTO OUR OCEAN. Itâ€™s hard enough to get our homes insured for fire, donâ€™t add one more thing to make south Orange County unlivable. The 5 freeway is also a big transportation route. There will be no way to evacuate north or south at that location. And with the train tracks 400 feet away, the vibrations from the train create more risk. There is so much land without homes nearby that can be used for this purpose, donâ€™t do it here.
