Against BESS plant in SJC

I was born and raised in San Juan Capistrano. My kids go to school at Stoneybrooke Christian School, right across the freeway from this proposed facility, I am an alumni at this school. I grew up playing soccer at the Saddleback church fields, now my daughters play there. This is ridiculous that this is being proposed.

1. Major freeway right there, insane hazard. A plant just like this, Moss Landing in Monterey caught fire 4 times since 2019. Evacuating 1500 people because of toxic fumes. So THE major freeway in CA is going to shutdown several times, basically once a year and going to evacuate thousands of people with no major freeway.
2. Fire hazard being right next to hills and brush, so many homes. Where several fires are in Orange County already.
3. Toxins being released to nearby residents so many schools in the area.

This is inexcusable that this has even got this far. This cannot go through. I am extremely AGAINST this.
