Dear California Energy Commissioners,

As a concerned resident of the City of Laguna Niguel, I am writing to express my strong opposition to the proposed battery energy storage system (BESS) facility. The project site, which is less than 1,500 feet from several residential neighborhoods in Laguna Niguel that I am living in. This proposed BESS project site presents significant fire, environmental and public health risks. It has a grave impact to all of us live around the area. I respectfully request that the California Energy Commission reject this project application and unequivocally prioritize public safety and community quality of life.

Sincerely,

Luke Chang
