CAUTION: This email originated from outside of the organization. Do not click links or open attachments unless you recognize the sender and know the content is safe.

I am a long time Laguna Niguel resident, and am vehemently opposed to this facility being built on this site. The already high fire danger we have here in the area already has made it difficult to insure our homes, and adding the risk of a potential toxic lithium battery fire will likely raise insurance rates or make many homes uninsurable and diminish home values in the area. Just wrong site on so many levels; do not approve this!

If necessary, we residents will work to put a statewide ballot initiative to stop facilities such as this from being placed near residential communities. You will leave us no choice.

Sincerely,
Dana Tomasello
Laguna Niguel
