## **I oppose the COMPASS engery storage plant**

I have lived here my entire life and know the area. This location is wrong for this project. These facilities are unsafe, even with the new standards it can not be guaranteed that it will not have create a dangerous situation to the hundreds of thousands of homes in the area. We have many single lane roads and in an emergency would be a very dangerous situation. The train goes right by the area making the ground unstable. If a fire broke out in that area it is brush surrounding it. Santa Ana winds happen multiple times a year, this is a recipe for disaster! We have a very hard time insuring our homes because of fires, this is irresponsible and negligent and should be moved to another location.
