Laguna Niguel Lithium Battery plant

As a resident of Laguna Niguel, I am extremely concerned and opposed to the placement of the lithium battery plant in the middle of a community, close to the railroad and the freeway.

What on earth are you thinking that this could be a good idea? After reading article after article about Moss Landing, this seems to be completely RIDICULOUS AND DANGEROUS to place a potentially hazardous plant so close to residents.

PLEASE DO NOT DO THIS TO US!

Barbara Hughston
