## **Opposition to Proposed Compass Energy Storage Project (24-OPT-02)**

This project is absolutely DISPICABLE! It puts LIVES at RISK! I can't even believe it's gotten this far.

There are numerous reasons why this is WRONG to put in the middle of a residential community.

Here's one more: Lithium batteries are NOT clean energy. Mining lithium is horrible for the environment. Disposing of the used up lithium batteries will also cause terrible harm.

There are other clean options on the horizon. Let's wait for a solution that is NOT WORSE than the problem.
