Valid concern- lithium battery facility

Good afternoon,

I know you have received thousands of letters and comments in regards to this facility. I do not need to go into the details of the negative effects this facility will have on our community. The negative health, safety environmental and economic impact this facility poses is significant. Have you ever watched a Netflix documentary series on buildings, facilities or events that warnings were not heeded and disaster happened? Profits were prioritized over human life? History has shown us that when these warnings are not taken into account that it can not only affect those that are directly within the facility area but those that approve such decisions. Don't be that person featured as the "villain" in this saga. Be the hero that stood up and put the earth and human beings above profit. I pray for my families sake and your own you make the right decision.

Sincerely
Colleen Burkhalter
