

DOCKETED	
Docket Number:	25-OPT-02
Project Title:	Prairie Song Reliability Project
TN #:	264561
Document Title:	Notice of Receipt of Opt-In Application for MOU Agencies
Description:	Notice emailed on July 3, 2025 to CDFW, DTSC, and Water Boards per MOU
Filer:	Marichka Haws
Organization:	California Energy Commission
Submitter Role:	Commission Staff
Submission Date:	7/3/2025 12:15:08 PM
Docketed Date:	7/3/2025

July 3, 2025

Notice of Receipt of Opt-In Application for Prairie Song Reliability Project (25-OPT-02)/
Request for Comments and Information

This letter serves as notice pursuant to the California Energy Commission (CEC) Memorandums of Understanding (MOUs) with California Department of Fish and Wildlife (CDFW), Department of Toxic Substances Control (DTSC), and California State Water Resources Control Board and the California Regional Water Quality Control Boards (collectively, the Water Boards), that CEC staff has confirmed receipt of an Opt-In Application for the Prairie Song Reliability Project (25-OPT-02). The effective filing date is July 2, 2025. Pursuant to Public Resources Code, section 25545.4(a), CEC staff will review the application and the CEC's Executive Director will make a determination of completeness within 30 days of the submission of the application. The Executive Director's determination will be filed on or before August 1, 2025.

The project webpage can be accessed at the following link:
<https://www.energy.ca.gov/powerplant/battery-storage-system/prairie-song-reliability-project>. To stay informed about this project and receive notice of upcoming public meetings, sign up to the project subscription, which can be accessed on the project webpage. Once enrolled, automatic email notifications are sent via govDelivery when documents and notices are posted to the project's docket.

The entire application can be accessed at the following link:
<https://efiling.energy.ca.gov/Lists/DocketLog.aspx?docketnumber=25-OPT-02>. Given the number of individual documents involved, sharing this link to the docket constitutes sharing the application files. Please contact us if you have trouble accessing any documents.

The CEC staff is now conducting a "Data Completeness" review of the application using data completeness worksheets that track information required under California Code of Regulations, title 20, section 1877 and data requests for any areas that are incomplete, require additional information, or require clarification.

Pursuant to the MOUs, your agency is obligated to provide information supporting the CEC staff's application completeness determination. This critical period is the opportunity that your agency has to ensure it has all the information it needs pursuant to the MOU, including the baseline data and proposed mitigation to evaluate the

project's direct, indirect and cumulative impacts and its compliance with applicable laws, ordinances, regulations, and standards, and provide permit conditions for this application. Also, during this period, you will need to make all data requests for this project through CEC staff (e.g., clarification of information, requests for information, etc.) to ensure that the application has what your agency would need to issue a permit or for the CEC to issue an in-lieu permit. The CEC staff assigned to the topics of Biological Resources, Water Resources, and Hazards and Hazardous Materials will reach out to you to coordinate on the data completeness review and are copied in this email.

The following is the relevant language on your agency's obligations to provide information supporting the CEC's completeness determination pursuant to the MOUs. The applicable language for CDFW is: "Within 15 days of receipt of an opt-in application, CDFW will review the opt-in application to determine whether it contains all the information required to assess compliance with applicable California Fish and Wildlife Laws; CDFW will identify and notify Energy Commission staff in writing of any data deficiencies and discuss proposed studies or outstanding data necessary to correct such deficiencies."

The applicable language for the Water Boards is: "Within 15 days of receipt of the application for certification, Water Boards' staff will review the application for certification to determine whether it contains all the information required to apply for the following permits, if applicable: Waste Discharge Requirements, NPDES Permits, and/or a Section 401 Certification or Waiver from the Regional Board; and Water Boards' staff will identify and notify Energy Commission staff of any data deficiencies."

The applicable language for DTSC is: "DTSC staff will make best efforts to review the application of certification within 15 to 25 days to determine whether it contains all the information required for an assessment of the following and whether applicable: waste generation and storage standards, site remediation, and waste reduction requirements; DTSC staff will identify and notify Energy Commission staff of any data deficiencies."

Please use the relevant portions of the Data Completeness sheets which correspond to the issues of interest to your agency and your permitting authorities, to guide your review of the application and preparation of data requests for areas of the application with incomplete or missing information. We will incorporate your data requests into the Executive Director's completeness determination. In addition, please provide any other information consistent with the language from the MOUs copied above.

For CDFW and the Water Boards, this information should be provided within 15 days per the MOUs, which falls on July 18, 2025.

Prairie Song Reliability Project (25-OPT-02)

For DTSC, this information should be provided within 15-25 days per the MOU, which ranges from July 18, 2025 to July 28, 2025.

We appreciate your timely responses and look forward to coordinating with you as the evaluation moves forward.
