RE: Orange County Power Authority Confidentiality Declaration for
Information Contained in its 2025 IEPR Electricity and Gas Demand
Forecast Forms

Orange County Power Authority (OCPA) hereby asserts confidentiality for information contained in its 2025 IEPR Electricity and Gas Demand Forecast forms under Section 2505(b) as a local agency which possesses information pertinent to the responsibilities of the Commission that has been designated by OCPA as confidential under the Public Records Act.

OCPA asserts confidentiality for the following information.

1. Form 8.1a, columns F - Q: Current Year (2025) and forward years Budget Appropriations or Actual Costs and Cost Projections by Major Expense Category.
2. Form 8.1b, columns D - O: Current Year (2025) and forward years Revenue Requirements Allocation.

OCPA does not publicly disclose its bilateral contract prices, actual costs, projected costs, or projected revenues, which is information required in Forms 8.1a and 8.1b. OCPA considers such information market sensitive, as public disclosure of this information could compromise OCPA's competitive position in the electricity market.

OCPA requests that the Commission keep OCPA's information confidential and protected from public disclosure for a period of three years, until July 14, 2028. This length of time is needed to ensure that OCPA's market-sensitive load forecast and supply information remains secure from market participants that could make competitive use of this information to the detriment of OCPA, OCPA's ratepayers, and the electricity market as a whole.

I certify under penalty of perjury that the information contained in this application for confidential designation is true, correct, and complete to the best of my knowledge. I also certify that as a community choice aggregator, OCPA is a local government agency and I am authorized to make the application and certification on behalf of Orange County Power Authority.
