Please reject compass energy project

Please, for all that is holy, reject the battery storage project. I live in the neighborhood adjacent to the proposed storage facility. I've lived here for 21 years. I've raised my children here and my young neighbors are raising theirs now. We don't need a potential disaster a stones throw away. The storage company can spend a few extra dollars and build their storage facility in the middle of nowhere, not by homes. Please don't make this about money. Thank you.
