opposition to proposed Compass energy storage project

I am opposed to the proposed compass energy storage project in San Juan Capistrano, and urge the commission to deny the applicants request. As a retired firefighter I am concerned with the impacts to the enviroment and the surrounding neighborhoods if a fire were to start in the battery storage areas. The amount of time and suppression resources that is required to extinguish a fire involving these batteries would inevitably cause a great deal of damage to the enviroment and surrounding neighborhoods. Please consider the risks to the residents and the enviroment this facility would bring and deny the application for construction.
