I. Permit Conditions

CRR-01

CRR-01: Running list of all person who have completed the Workers Environmental Awareness Program training to date.

Verification: The project operator shall provide a quarterly compliance report to the CEC Compliance Project Manager (CPM) including a record of the number of persons who have completed the Workers Environmental Awareness Program training in the prior quarter and a running total of all persons who have completed the training to date.

Total number of individuals who complete WEAP training in Q2 2025: 58

Total number: 535

CRR-02

CRR-02: If a cultural resource is found during installation of the project, the project operator shall provide the following documentation to the CPM:

- A description of the cultural resource, the circumstances surrounding its discovery, actions taken to protect the resource, and the disposition of any artifacts or features that came into the project operator's possession
- A confidential map of the discovery location on an aerial photograph or project plans
- Photographs of the cultural resource and constituent artifacts or features

If human remains are found during installation of the project, the project operator shall document the discovery as described in the bulleted list above and demonstrate compliance with California Health and Safety Code, Section 7050.5(b). Demonstration of compliance may include:

- Telephone conversation logs
- Copies of email exchanges
- Minutes from field meetings

Verification: The project operator shall provide the documentation described in the previous paragraphs with the reports required under CRR-1, in a confidential appendix. The project operator shall keep this documentation on file for at least 6 months following the start of commercial operation.

No cultural resources or human remains were found during project installation, or since project installation.

CRR-03

CRR-03: The Environmental Coordinator (EC) shall be retained by the project operator. The EC will have the authority to review and approve the following materials and assume the following duties:

- Per CCR-4, design the Worker Environmental Awareness Program;
- Issue stop-work orders as per CCR-4;
- Report to the CPM, CDFW or USFWS any take of special status plants, wildlife, or habitat (per CCR-6);
- The EC shall have the following qualifications: at minimum, will hold a bachelor's degree in Environmental Science, Environmental Planning, Urban Planning, or a related field, as well as a minimum of 3 years of applicable, relevant experience; and
- The EC shall be available to the CPM or their CEC staff-designee, for consult and updates upon request.

No changes in Q2 2025.

CRR-04

CRR-04: Implementation of a Workers Environmental Awareness Program (WEAP).

Verification: The project operator shall provide a quarterly compliance report to the CPM a record of the number of persons who have completed the training in the prior months and a running total of all persons who have completed the training to date. The signed training acknowledgement forms from construction shall be kept on file by the project operator for a period of at least 6 months after the start of commercial operation. During project operation, signed statements for active project operational personnel shall be kept on file for 6 months following the termination of an individual's employment.

Reference CRR-01 for evidence.

CRR-05

CRR-05: The project operator shall undertake the following:

- Provide representative schematics, diagrams, or shapefiles of the final package unit configuration and linear connections;
- The project operator shall design, install, and maintain project-related features such as access roads and storage and parking areas to avoid identified sensitive resources;
- Stake or fence the limits of the work zone and access roads, and prohibit any offsite use or impacts;
- Eliminate from landscaping or revegetation plans any List A California exotic pest plants of concern as defined by the California Exotic Pest Plant Council;
- Prescribe a road sealant that is non-toxic to wildlife and plants; and
- Design, install, and maintain any additional necessary facility lighting to prevent side casting of light toward native habitat.

Verification: The project operator is to report the proof of the implementation of the measures above on the quarterly compliance reports. This condition and reporting requirement was satisfied during the construction phase and all requirement documentation was submitted to the CPM prior to Roseville assuming operator status on August 29, 2022.

If there are any modifications or updates made to the conditions or criteria specified in the report requirements for CRR-05, those changes will be included in this quarterly report.

CRR-06

CRR-06: The project operator shall implement the following measures to manage its construction site (and related facilities) in a manner to avoid or minimize impacts to local biological and cultural resources:

- Install temporary fencing and provide wildlife escape ramps for construction areas that contain steep-walled holes or trenches if outside an approved, permanent exclusionary fence. The temporary fence shall be hardware cloth or similar material that is approved by the CPM, and CDFW;
- ensure that all food-related trash is disposed of in closed containers and removed at least once a week;
- prohibit feeding of wildlife by staff and subcontractors;
- prohibit non-security-related firearms or weapons on site;
- prohibit pets on site;
- report all inadvertent deaths of sensitive species to the Environmental Coordinator, who will, within 24 hours, notify the CPM, CDFW or United States Fish and Wildlife Service, as appropriate; and
- minimize use of rodenticides and herbicides in the project area.

Verification: Implementation of the measures shall be reported in the quarterly compliance reports by the Environmental Coordinator. Within 30 days after completion of project deployment, the project operator shall provide to the CPM, for review and approval, a written construction termination report identifying how environmental resource measures have been completed. This report may or may not be coincidental with the quarterly monitoring report.

The written construction termination report was submitted and accepted by the CEC on September 29th, 2022. Facility is operational and construction has been completed.

CRR-07

CRR-07: The project has been issued a waiver of the requirements of a construction stormwater pollution prevention plan (SWPPP) by the State Water Resources Control Board based on the low rain erosivity of the site. However, the project operator shall implement stormwater best management practices (BMPs) to ensure that no contaminated water is discharged off-site. Examples of contaminated water include dust suppression water, equipment wash water, and contact stormwater or sediment laden stormwater in the unlikely event that significant rain falls on the project site during construction.

Copy of SWPPP previously submitted on Q3 2022 CEC QAQR report.

CRR-08

CRR-08: Prior to operation of the temporary power generators, the project operator shall notify the residences within 2500 feet from the project site, by mail or by other effective means, of the commencement of project operation. The notification shall include a telephone number for use by the public to report any undesirable noise conditions during the operation of the project. Within five business days, project personnel shall notify the CPM that the above notification has been sent.

If the project receives a noise complaint, project personnel shall document and investigate the complaint to determine the source of the noise. If the investigation determines that the noise is project related, project personnel shall attempt to resolve the complaint to the satisfaction of the complainant.

The project operator shall use the attached Noise Complaint Resolution Form or a functionally equivalent procedure, to document and respond to the noise complaint. The completed form shall be submitted to the CPM within three business days following its completion.

If project personnel and complainant cannot reach consensus, project Personnel shall notify the CPM.

No complaints received in Q2 2025.

CRR-09

CRR-09: After construction is complete, the project operator shall submit Semi-Annual Compliance Reports; the project may be required to submit additional compliance reports as mandated by the technical areas. The reports are due to the CPM at a date agreed to by the CPM. Each Semiannual Compliance Report shall identify the reporting period and shall contain the following:

- An updated compliance matrix, in a spreadsheet format. The compliance matrix must identify the following:
 - the technical area and number of the conditions and reporting requirements;
 - a brief description of the submittal required;
 - the date when the submittal is required and the expected or actual submittal date; and
 - the compliance status of each condition and reporting requirement.
- A summary of the current project operating status and an explanation of any significant changes to facility operations;
- Documents required by specific conditions and reporting requirements to be submitted along with the Semi-Annual Compliance Report as attachments; and
- A listing of filings made to, or permits issued by, other governmental agencies during the year.

Submitted in Semi-Annual Report every January and July.

CRR-10

CRR-10: The project operator shall report and provide copies of all incidents, complaints, notices of violation, notices of fines, official warnings, and citations, within seven days of receipt or occurrence, to the CPM. Complaints shall be logged and numbered.

No incidents, complaints, official warnings, and citations in Q2 2025. We received two NOV's in Q2 2025. One violation was for an event that occurred in Q3 2024, and the other was for an event that occurred in Q1 2025. NOV 7002 & 7034 attached and signed.

NOTICE OF VIOLATION

May 19, 2025

Attn: Julie Manfredi
Roseville Energy Park
2090 Hilltop Cir.
Roseville, CA 95747

Notice of Violation:

Number: 7002 and 7034
Date(s): September 3, 2024 (NOV #7034); January 28, 2025 (NOV #7022)
Location: 5120 Phillip Rd., Roseville, California

This letter is your notice that the Placer County Air Pollution Control District (District), authorized and established by California Health and Safety Code Section 40002, has made the finding that you are responsible for violation(s) of District rules and regulations and/or state/federal air pollution laws. You can find District rules at <http://www.placerair.org/1861/Rules>.

Violation Circumstances:

NOV #7034

On 09/03/24, NH₃ emissions (one hour averages) from CT-5 (operating under District Permit to Operate REPR-20-03) were determined at 13.5, 13.1, and 13.2 ppmv, during hours starting at 08:00, 15:00, and 19:00, respectively. This is an exceedance of Permit Condition 43 which limits NH₃ emissions to 10 ppmv (one hour average).

You requested Emergency Variance #24-05 on 09/04/24 to allow for continued operation, which was approved on 09/05/24. Due to PG&E gas supply pressure issues causing you to be unable to properly identify the issue, you requested Short Term Variance #24-06, which was approved on 10/01/24.

You conducted further evaluation and testing in early January 2025, which included determination of a revised NH₃ calculation "correction factor" and ammonia injection grid balancing and cleaning.

NOV #7002

On 01/28/25, NO_x emissions (one hour average) from CT-6 (operating under District Permit to Operate REPR-20-04) was 4.31 lb/hr, and 5.2 ppmv @ 15% O₂, for the hour starting at 13:00. Permit Conditions 34a and 34b limit NO_x emissions to 2.71 lb/hr and 2.5 ppmv @ 15% O₂ (one hr averages). Excess emissions occurred when the turbine went into an automatic and sudden forced shutdown. The shutdown was due to overheating of the turbine package compartment, caused by inadvertently putting the turbine compartment ventilation fan switch into the "OFF" position.

Settlement Offer:

Based upon our investigation, there is sufficient information to proceed with a civil action pursuant to California Health and Safety Code, Article 3, Section 42402 et seq. As is provided for in State law, it is the District's policy to settle these matters through a mutual settlement process in lieu of pursuing this case in court.

Accordingly, the District offers to settle this matter pursuant to the conditions listed in the proposed settlement agreement (enclosed), including a monetary penalty of **One Thousand One Hundred Dollars (\$1,100)**. For the violation, you have liability of up to \$10,000 per violation per day pursuant to California Health and Safety Code Section 42402(b)(2)(B). The offer is reduced from the maximum to encourage settlement out of court and in consideration of the severity and circumstances of the violation(s).

If the terms listed in the agreement are acceptable, you are requested to sign and return the enclosed Settlement Agreement, with a check payable to the Placer County Air Pollution Control District in the amount of the penalty, or a receipt showing that you have paid the penalty online at <http://www.placerair.org/onlinepayments>. Payment must be received no later than **July 15, 2025**. Upon receipt of the signed agreement and your payment, you will be provided with a letter acknowledging settlement of this matter.

If this case is not settled by July 15, 2025, then the settlement offer is withdrawn. Cases that are not settled through this mutual settlement process the District will seek resolution through court action. If you feel there are additional facts or circumstances the District should take into consideration in settling this matter, contact me at (530) 308-4871.

Sincerely,

Bruce Springsteen
Compliance and Enforcement Manager

Enclosures: Settlement Agreement

AGREEMENT

Notice of Violation No. 7002 and 7034

Roseville Energy Park shall pay a settlement of **One Thousand One Hundred Dollars (\$1,100)**, in lieu of civil penalties determined pursuant to California Health and Safety Code Section 42402 et seq. The total monetary settlement is to be paid no later than **July 15, 2025**.

Return of this agreement is requested by July 15, 2025

Failure to meet any of these agreement conditions shall void this agreement. In consideration of this settlement, the District agrees to refrain from seeking additional penalties with regard to the violation(s) set forth in this Notice of Violation letter. Notwithstanding this agreement, any evidence used in this matter may also be used in subsequent, but separate, enforcement actions. The signatures below signify agreement with the stated terms and conditions. By agreeing to these terms the alleged violator does not indicate acceptance of guilt.

Please return this form with payment of the monetary portion of the settlement to the *Placer County Air Pollution Control District, 110 Maple Street, Auburn, CA 95603*, in acknowledgment that these terms of settlement are accepted.

RETURN THIS AGREEMENT WITH YOUR PAYMENT

CRR-11

CRR-11: At the end of the life of the permit, to ensure that a planned facility closure does not create adverse environmental, health, and safety impacts, the project operator shall submit a facility closure plan to the CEC for review and approval at least 6 months (or other time period agreed to by the CPM) prior to commencement of closure activities.

Facility is currently operational.

CRR-12

CRR-12: The project operator shall comply with the terms and conditions of the Authority to Construct (ATC) and the Permit to Operate (PTO) issued by the Placer County Air Pollution Control District (PCAPCD).

In the event that the air district finds the project to be out of compliance with the terms and conditions of the ATC/PTO, the project operator shall notify the CPM of the violation, and the measures taken to return to compliance, within five days.

Detection of Non-Compliance Event	Date Time ☐ AM ☐ PM

Complete the following questions associated with determining whether an event is an "Upset/Breakdown" Event pursuant to Rule 404, and/or an "Emergency" Event pursuant to Rule 507. To be considered as a legitimate Upset / Breakdown or Emergency event, all of the checklist questions must be answered with a "Yes" checkmark.

Yes No

- | | | |
|--------------------------|--------------------------|--|
| ☐ | ☐ | 1. Equipment associated with the breakdown event have been designed, maintained, and operated in a manner consistent with minimizing emissions. |
| ☐ | ☐ | 2. The amount and duration of emissions as a result of the event have been minimized. |
| ☐ | ☐ | 3. The event is not part of a recurring pattern of previous breakdowns of the same equipment for same/similar reasons that are indicative of inadequate equipment design, operation, or maintenance. |
| ☐ | ☐ | 4. The event is not the result of operator error, negligence, carelessness, or willful misconduct (i.e., the facility is being properly operated). |
| ☐ | ☐ | 5. The event is not the result of improper equipment design. |

You are requesting that the District not take enforcement action because the Non-Compliance Event is the result of an "Upset / Breakdown" Event under District Rule 404. A breakdown condition means an unforeseeable failure or malfunction of 1) any air pollution control equipment or related operating equipment which causes a violation of any emission limitations or restriction prescribed by the District Rules and Regulations, or by State law, or 2) any in-stack continuous monitoring equipment, where such failure or malfunction: (1) is not the result of neglect or disregard of any air pollution control law or rule or regulation; (2) is not intentional or the result of negligence; (3) is not the result of improper maintenance; (4) does not constitute a nuisance; (5) is not a recurrent breakdown of the same equipment. You have the burden of providing sufficient information to demonstrate that the Upset / Breakdown was an unforeseeable equipment failure or malfunction that meets the above listed criteria. This checklist must be completed and returned to the District with either the Part 1 or Part II Non-Compliance Event Notification form to attest to your having made this determination. Submission of a request for shielding from enforcement action does not by itself confer such a shield. If breakdown or emission exceeding operations continue after the breakdown or emission exceedance is identified, the possibility exists that the District after consideration of the information provided, the timeliness and completeness of the submittals, and a comparison to other like breakdowns, may ultimately determine that the Non-Compliance Event was not the result of a legitimate Upset / Breakdown event and may elect to take enforcement action. Action to return to compliance should be accomplished as expeditiously as possible. Thus, you are advised to: (1) assure that the breakdown meets the criteria for an unforeseeable failure or malfunction; (2) minimize emissions resulting from the event to the maximum degree possible; and (3) assure that the required failure and malfunction information and information on the corrective actions taken is provided to the District in a complete and timely manner.

You are requesting that the District not take enforcement action because the Non-Compliance Event is the result of an "Upset / Breakdown" Event under District Rule 404. A breakdown condition means an unforeseeable failure or malfunction of 1) any air pollution control equipment or related operating equipment which causes a violation of any emission limitations or restriction prescribed by the District Rules and Regulations, or by State law, or 2) any in-stack continuous monitoring equipment, where such failure or malfunction: (1) is not the result of neglect or disregard of any air pollution control law or rule or regulation; (2) is not intentional or the result of negligence; (3) is not the result of improper maintenance; (4) does not constitute a nuisance; (5) is not a recurrent breakdown of the same equipment. You have the burden of providing sufficient information to demonstrate that the Upset / Breakdown was an unforeseeable equipment failure or malfunction that meets the above listed criteria. This checklist must be completed and returned to the District with either the Part 1 or Part II Non-Compliance Event Notification form to attest to your having made this determination. Submission of a request for shielding from enforcement action does not by itself confer such a shield. If breakdown or emission exceeding operations continue after the breakdown or emission exceedance is identified, the possibility exists that the District after consideration of the information provided, the timeliness and completeness of the submittals, and a comparison to other like breakdowns, may ultimately determine that the Non-Compliance Event was not the result of a legitimate Upset / Breakdown event and may elect to take enforcement action. Action to return to compliance should be accomplished as expeditiously as possible. Thus, you are advised to: (1) assure that the breakdown meets the criteria for an unforeseeable failure or malfunction; (2) minimize emissions resulting from the event to the maximum degree possible; and (3) assure that the required failure and malfunction information and information on the corrective actions taken is provided to the District in a complete and timely manner.

Subject: Non-Compliance Event Notification #2025-010 PART II

Bruce,

This memo provides supplemental details to the Non-Compliance Event Notification #2025-010 "UPSET/BREAKDOWN," submitted on May 15, 2025, regarding an incident involving RPEAK Combustion Turbine #6 (CT6).

The event occurred during a test run conducted in preparation for the upcoming annual Relative Accuracy Test Audit (RATA) and Source Test, as required by Conditions #30 through #33 of Permit to Operate #REPR-20-04. The RATA/Source Test was scheduled for the following week.

Incident Summary:

- **Startup Time:** 12:09
- **Full Load Achieved:** 12:15
- **Alarm Event:** At 12:24, the unit received a turbine overspeed alarm.
- **Response:** The alarm caused the CT to rapidly unload down to 1.5 MW until the condition cleared. The alarm cleared within minutes, and the unit returned to full load by 12:29.
- **Test Completion:** The unit operated without further issues until the scheduled stop at 15:00.

Emissions Impact:

The brief alarm event resulted in excess emissions of NOx (in both ppmvdc and pounds per hour) during the transient operating condition.

Follow-Up Actions:

After the unit cooled down, the turbine's speed probe was removed and inspected for contamination or mechanical faults. It was found to be in normal condition and was reinstalled.

On May 22, 2025, CT6 was operated continuously for 12 hours to complete the scheduled RATA/Source Test. The unit performed normally with no recurrence of alarms or anomalies.

Subject: Non-Compliance Event Notification #2025-012 PART II

Bruce,

This memo provides supplemental information regarding Non-Compliance Event Notification #2025-012 ("UPSET/BREAKDOWN") submitted on June 11, 2025, for RPEAK Combustion Turbine #5 (CT5).

The event occurred during a scheduled test run on June 10, 2025, at approximately 09:00 to complete the annual PM-10 Source Test per Permit to Operate #REPR-20-03, Condition #31. The test began under normal conditions, and the unit reached full load. However, shortly after startup, the NOx water injection pump ceased supplying water to the turbine, resulting in elevated NOx readings from the Continuous Emissions Monitoring System (CEMS), which exceeded regulatory limits.

In response, the Operator reduced turbine output to 5 MW to mitigate emissions; however, NOx levels remained above allowable thresholds. At approximately 09:10, the decision was made to shut down the unit. A Part-I report for Non-Compliance Event #2025-012 was submitted the following day.

Subsequent troubleshooting and corrective actions by Roseville staff failed to restore proper NOx water injection performance. This morning, thermocouple TE-2037A—responsible for measuring the NOx water pump discharge temperature and triggering a shutdown if the temperature exceeds safe limits—was replaced. After replacement, the unit was successfully restarted and operated within normal NOx emissions parameters.

Montrose Environmental, the contracted testing agency, has since mobilized to CT6 and completed its PM-10 testing. Testing for CT5 will be rescheduled as soon as practical to complete the required compliance demonstration under Permit Condition #31.

You are requesting that the District not take enforcement action because the Non-Compliance Event is the result of an "Upset / Breakdown" Event under District Rule 404. A breakdown condition means an unforeseeable failure or malfunction of 1) any air pollution control equipment or related operating equipment which causes a violation of any emission limitations or restriction prescribed by the District Rules and Regulations, or by State law, or 2) any in-stack continuous monitoring equipment, where such failure or malfunction: (1) is not the result of neglect or disregard of any air pollution control law or rule or regulation; (2) is not intentional or the result of negligence; (3) is not the result of improper maintenance; (4) does not constitute a nuisance; (5) is not a recurrent breakdown of the same equipment. You have the burden of providing sufficient information to demonstrate that the Upset / Breakdown was an unforeseeable equipment failure or malfunction that meets the above listed criteria. This checklist must be completed and returned to the District with either the Part 1 or Part II Non-Compliance Event Notification form to attest to your having made this determination. Submission of a request for shielding from enforcement action does not by itself confer such a shield. If breakdown or emission exceeding operations continue after the breakdown or emission exceedance is identified, the possibility exists that the District after consideration of the information provided, the timeliness and completeness of the submittals, and a comparison to other like breakdowns, may ultimately determine that the Non-Compliance Event was not the result of a legitimate Upset / Breakdown event and may elect to take enforcement action. Action to return to compliance should be accomplished as expeditiously as possible. Thus, you are advised to: (1) assure that the breakdown meets the criteria for an unforeseeable failure or malfunction; (2) minimize emissions resulting from the event to the maximum degree possible; and (3) assure that the required failure and malfunction information and information on the corrective actions taken is provided to the District in a complete and timely manner.

CRR-13

CRR-13: The project operator shall provide an emissions reporting protocol to the CPM for review and approval. The emissions reporting protocol shall explain the procedures for estimating criteria pollutant emissions during emergency operation and reliability testing. The protocol shall list the calculation methodologies, operational parameters used to quantify emissions (e.g., fuel flow, gross calorific value of fuel, predetermined emission factors, water injection, megawatts, etc.), and any assumptions made in the estimate. The protocol shall be submitted at the end of each operating quarter for approval. Upon approval of the protocol, the operational emissions shall be reported using and presenting the same calculation methodologies, operational parameters and assumptions used to quantify emissions. Emissions shall be reported to the CPM quarterly. In addition to emissions reporting, the reported data shall include fuel use, hours of operation and times of operation, and energy produced by that use and operation.
