Hi Kelene and Ronelle,

For Potentia-Viridi, 24-OPT-04, the CEC is requesting one more item of clarification regarding Biological Resources, alluded to in the email of 7/22 on biological resources. The CEC plans to file this email to the docket.

California Department of Fish and Wildlife has completed review of the “401 Permit Figures” that you docketed (Ref. TN 264903) on 7/18/25. CDFW is requesting expansion of the area of CDFW regulatory authority to elevation 432 on the west side of Patterson Run creek and to 430 on the east. Please revise the plans to reflect CDFW jurisdictional area and provide updated impact estimates in the LSAA notification. Please revise the LSAA notification and re-submit a redline/strike-through version, to include the .kmz files.

Please file your responses to the docket. If you have any questions about these items, let us know.

Thank you.

Eric W. Veerkamp
