No on Battery Storage - NextEra Corby BESS

Please do not allow the NextEra Corby BESS project to proceed. We do not want this anywhere near Vacaville. These projects are dangerous and do not belong near communities, water sources, or agriculture. Fires at these facilities threaten our water and air quality, along with the agriculture in the region. If they are to be allowed anywhere, they should be far away from civilization. If that defeats the purpose, then so be it. Scrap the whole project idea and look for less threatening technology. Please do the right thing. Stop these projects before they permanently harm our communities and natural resources.
