## **Opposed to NextEra Corby BESS location in Eastern Vacaville Area**

I am writing to express my concern and distaste for a company which would avoid seeking, honoring and respecting the wishes of local residents, but who would instead try to approach a California State entity in order to circumvent local opinion and community policies.

The impact of a BESS fire (not an unusual event) could affect millions, significantly beyond the local residents who would lose real estate value by having to disclose their proximity to a BESS facility, not to mention health and environmental impacts... BUT can you imagine the I-80 corridor shut down between Dixon and Vacaville, potentially for several days? Please say NO to NextEra Corby's proposed BESS location in Solano County!
