The California Energy Commission (CEC) will hold a public hearing for the proposed regulations at the date and time listed in this notice. Interested persons, or their authorized representative, may present statements, arguments, or contentions relevant to the proposed regulations at the public hearing. The record for this hearing will be kept open until every person present at the conclusion of staff's presentation has had an opportunity to provide comment.

The public can participate in the workshop consistent with the attendance instructions below. The CEC aims to begin promptly at the start time posted and the end time is an estimate based on the proposed agenda. The workshop may end sooner or later than the posted end time.

Agenda

This workshop will discuss the proposed certification of previously adopted emergency regulations, under the Petroleum Industry Information Reporting Act of 1980 (PIIRA) located in the California Code of Regulations, title 20, division 2, chapter 3, article 3 (collectively referred to in this notice as the proposed rules). Staff will provide an overview of scope and covered topics for the proposed certification, including formats for data submission.

The hearing will include a public comment period.

A detailed meeting schedule will be posted prior to the workshop at [Docket No. 23-OIR-03](https://efiling.energy.ca.gov/Lists/DocketLog.aspx?docketnumber=23-OIR-03) available at <https://efiling.energy.ca.gov/Lists/DocketLog.aspx?docketnumber=23-OIR-03>.

Background

The CEC proposes to certify emergency regulation changes to the Petroleum Industry Information Reporting Act in the California Code of Regulations (CCR), Title 20, Division 2, Chapter 3, Article 3, after considering all comments, objections, and recommendations regarding the proposed regulation.

The purpose of this proceeding is to formally certify emergency data collection regulations adopted in 2024 and 2025 so the CEC may comply with directives and tasks given to the CEC. In response to a severe transportation fuel price spike in the fall of 2022, the Governor convened a special legislative session that led to the enactment of Senate Bill (SB) X1-2 (Stats. 2023, 1st Ex. Sess. 2023, ch. 1) in March 2023. Among other things, SB X1-2 amended Chapter 4.5 of Division 15 of the Public Resources Code (the Petroleum Industry Information Reporting Act of 1980 (PIIRA)) and created a new independent division in the CEC, the Division of Petroleum Market Oversight (DPMO). Under PIIRA, the CEC collects data about the petroleum market that is essential for the state to develop and administer energy policies in the best interests of the state and public welfare. SB X1-2 significantly expanded the information that refiners and other petroleum market participants are required to submit to the CEC under PIIRA.

In February 2024, May 2024, July 2024, and February 2025, the CEC adopted emergency regulations requiring certain entities within the petroleum industry to submit the following data reports:

- CEC-D354 Spot Transactions and Settlements
- CEC-M1322 Refining Margins
- CEC-EBR700 Import Reporting
- CEC-M08PH Positions Held at Terminals
- CEC-W08PH Positions Held at Terminals
- Quarterly Projections of Receipts
- Quarterly Projections of Distributions

It is the objective of this rulemaking to certify the four sets of emergency regulations in order to make these regulations permanent and maintain consistency in reporting as the data now directly informs California transportation fuel policy.
