## **Against the proposed Battery Plant**

1. Location. Is right next to public freeway would be a disaster if fire. Next to homes unfairly puts them at environmental and disaster contamination
2. Lithium Batteries are dangerous and polute  
No plan for fire mitigation. Could poison the population  
Have to plan for the worst case scenario if it had a fire! No need for this!
3. Would dissipate home and land values! What compensation for that how about lives!
